CALL FOR PAPERS

TO **COMMUNICATE** AND
EXPAND YOUR NETWORK:

- submit a **paper** and **present** before January 16
- book a **stand** and **exhibit**
- plan your **visit** and receive a **programme**

Research meets
Industry**

COLLÈGE FRANÇAIS DE
METROLOGIE

ORGANISING COMMITTEE

CO-CHAIR

Pierre **CLAUDEL** - CETIAT (FR)

Jenny **HULLY** - NPL (GB)

CO-CHAIR OF THE SCIENTIFIC AND TECHNICAL COMMITTEE

Euarda **Filipe** - IPQ (PT)

Jean-Remy **Filtz** - LNE (FR)

GENERAL SECRETARIAT

☎ 33 (0)4 67 06 20 36 ■ info@cfmetrologie.com ■ www.metrologie2015.com

INDUSTRY MEETS SCIENCE

A 3 day conference to discover state of the art technologies in measurement, explore industrial challenges and uncover the latest innovations for increased performance through:

- a varied **conference** programme and **round tables sessions**
- **technical site visits** exploring industrial best practice
- an **exhibition** showcasing innovations and solutions

AIMS

- **explore the most recent developments** in measurement techniques and their application for industry,
- **realise the added value of measurement** as a quality assurance function for products and processes.

PARTICIPANTS

- More than 1000 specialists from 50 different countries**
- users of measurement technology in industry, laboratories and national institutes,
 - manufacturers of measurement equipment and instrumentation,
 - quality managers and decision makers,
 - academics and researchers.

AUTHORS INFO

- Reply to authors 25 February 2015
- Final paper due 15 July 2015
- **Selection for peer reviewed journals**

THEMES

- **Control of measurement, analysis and testing processes**
Measurement uncertainties - Traceability - Interlaboratory comparisons - Calibration - Verification - Training - Cost Optimisation - Certification - Metrology function
- **Physical & chemical measurements**
Mass - Force - Flow - Pressure - Dimensional - Electricity - Time-frequency - Temperature - Hygrometry - Optics and photonics - Chemical metrology - Ionising radiation - Acoustics
- **Regulation, legal metrology, international recognition**
- **New metrology and new sectors**
Biotechnology - Agri-food industry - Environment - Energy - Health - Sensors and smart grids

ROUND TABLES

- Metrology for the Future
- ISO 9001:2015 requirements
- Safety and metrology in food industry
- Metrology outsourcing
- Soft metrology
- Nanotechnologies
- Metrology in pharmaceutical manufacturing and health care
