

## Smart Future in Home Appliances

### Urmariti:

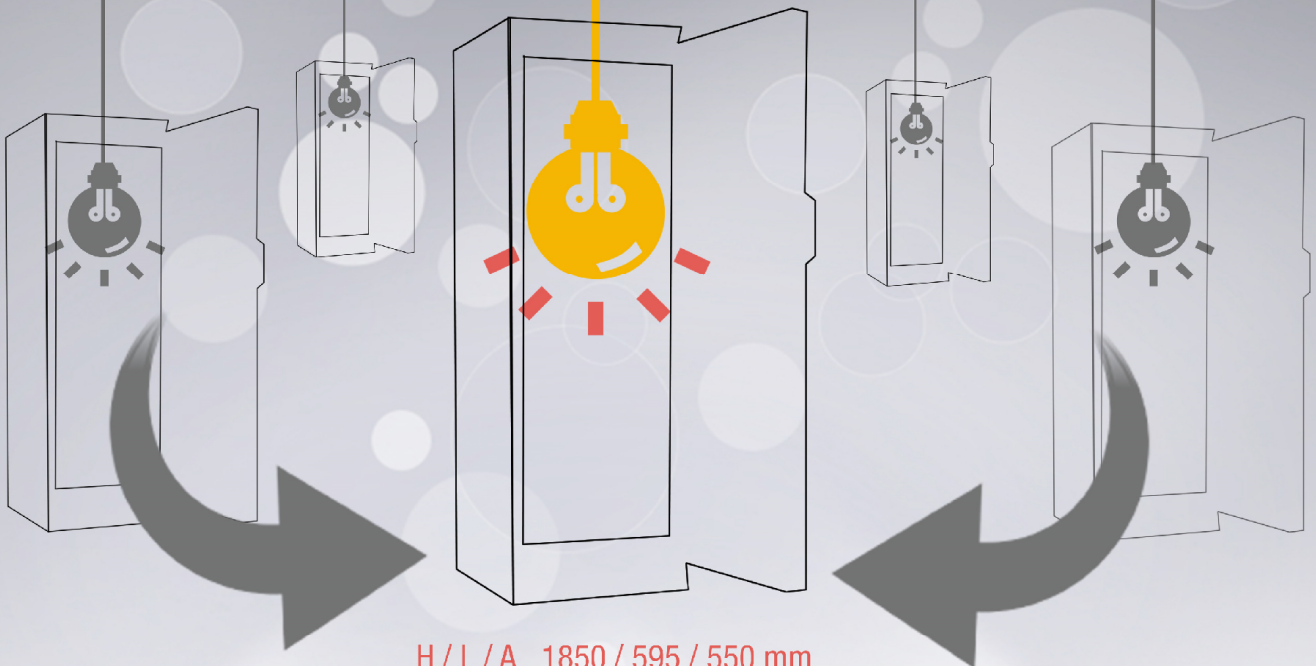

Obtinerea unui volum interior cat mai optim

Utilizarea eficienta a spatiului de racire

Identificarea unor solutii tehnice de reglare a etajerelor pe contrausa

Eficientizarea iluminarii interioare prin pozitionarea lampilor

Utilizarea eficienta a spatiului de congelare

H / L / A 1850 / 595 / 550 mm

**Proiectati un aparat  
frigorific cu o clasa  
energetica superioara  
A+++**

**Prezentare Power Point,  
maxim 10 slide-uri.**

Termen limita:  
**29 Noiembrie**

# Smart Future in Home Appliances

Arctic launches you the invitation to **Go Beyond Yourself** with your passion for product designing.

**Smart Future In Home Appliances Project** is a four (4) weeks **on-line project** for young technical students, involving more stages, being all along assisted by a professional team via e-mail.

## Steps of the Successful Application

- Sending your application to [monica.constantinescu@arctic.ro](mailto:monica.constantinescu@arctic.ro) and receiving the confirmation that we welcome you in the project (until October 30).
- Sending you the project details with all the requirements you need to get the project done (October 31).
- Sending us your project (November 29).
- Assessment of the project. A team of R&D experts will assess your ideas against originality, functions and designing solutions, but also feasibility (December 1-4).
- Letter invitation to the Seminar Believe in You. If your project describes smart ideas, then we will want to get to know you. You will receive a letter invitation to the "Seminar Believe in You", to make it public in front of all the Arctic team and your peers. The best projects will be rewarded (December 5).

## Who we are looking for?

**Our strongest believe is that passion makes the difference for a better world.**

So, if you are student with technical background, committed to your passion for engineering and willing to strive for growing your potential, then we make a good fit.

**The project could be the beginning of your early career and of a long term relationship.**

Looking forward to meeting you!  
Arctic Team
